

# VII Congress of Pediatricians of CIS Countries

## “Child and Society: Problems of Health, Development and Nutrition”

October 23-24, 2015  
Sochi, Russia

The Congress is held under the auspices of the Federation of Pediatricians of CIS Countries that has been established to exchange advanced experience among leading specialists in the field of children’s health care and unites national pediatric communities.

Pediatricians, researchers at core research institutes, specialists in the field of public health care organization, physicians of schools and preschool educational institutions, medical students, specialists in children’s nutrition are invited to take part in the work of the Congress.

Federation of Pediatricians of CIS Countries was set up in 2008 on the initiative of a number of leading pediatricians of the Russian Federation and Ukraine. The main objective of the Federation is coordination of activities of specialists working in the field of pediatrics, in order to make coordinated decisions on topical problems in the field of children’s health care.
